## Programming

### CHAMPIONSHIPS

The SkillsUSA Championships is the premier showcase of Wyoming's most highly skilled middle school, high school, and postsecondary career and technical education students. It is one of the most impactful hands-on workforce development programs in the state. Held at SkillsUSA Wyoming's State Leadership and Skills Conference, this inspiring event features students competing head-to-head in 60+ skilled, occupational, and leadership competitions.

The philosophy of the SkillsUSA Championships is to reward students for excellence, involve industry professionals in directly evaluating student performance, and ensure that classroom training aligns with employers' needs. The competitions are developed, overseen, and judged by dedicated industry volunteers, all committed to building the next generation of skilled professionals, career-ready leaders, and responsible community members that our future depends on.

The SkillsUSA Championships is the culmination of a process that begins with students preparing and honing their skills through their SkillsUSA Wyoming chapters. Competitors advance directly to the state-level competitions, where they showcase their talents and test their abilities against the best in the state. State gold medalists then earn the opportunity to compete nationally at the National Leadership and Skills Conference held each June. Along with gold, silver, and bronze medallions, competitors may earn scholarships, tools of the trade, and even job offers. Most importantly, they gain the confidence that comes with knowing they are among the very best in their fields.

## **BOARD-APPROVED COMPETITION ELIGIBILITY**

Each student may:

- Compete in ONE Leadership Contest,
- Compete in ONE skilled/occupational competition,
- Compete in ONE TEAM EVENT (Quiz Bowl, Health Knowledge Bowl, any skilled/occupational OR leadership event requiring more than one person).
- The exception is: Medical Terminology.

**Note:** Competitions held in Gillette, at Gillette College are NO LONGER exceptions.

The best way to configure this formula is to consider a student's top contest choices and THEN plug them into the rule and the schedule.

If a student wants to compete in Health Knowledge Bowl, Med Terminology, Medical Math, and Quiz Bowl, they can! Med Term, is the exception listed above, HKB - can serve to check one of two boxes - their team competition or their Occupational Competition. Med Term would check the Technical Competition box, and Quiz Bowl would check the leadership competition box. Again - what do they want to do, and then work the formula backwards to see if it works!

What must always be considered? Scheduling! MOST leadership contests are on Day One. Technical on Day Two. A student can not choose Individual welding (technical contest) and Welding Fabrication (team choice) because they happen on the same day. This type of scenario is indeed an exception to the rule we have in place, but in the case of most students, it does not create an issue as most are only enrolled in one career pathway and therefore only compete in one technical competition. For the reason of preparation alone, we highly recommend only one skilled/technical competition.

## **TECHSPO**

At the Techspo, you will find hands-on displays that allow students to engage with industry leaders, equipment, and materials related to various Career and Technical Education pathways. Colleges and career tech institution representatives are also present and many provide scholarships in technical areas to gold medalists on Wednesday.

## **STATE COMMUNITY SERVICE PROJECT**

Join us at Check-In to volunteer for our Community Service Project. **More information to be released right here, March 1!**

## **SkillsUSA UNIVERSITY! SPEAKER SERIES**

### **Back by popular demand for 2026!**

With a mix of humor, wisdom, and interactive activities, Kyle ensures everyone leaves rejuvenated and ready for future success. He paints a vivid picture of achieving ambitious goals through continuous learning and innovation, making his sessions action-packed and fun. Ready to be inspired and motivated?

*Plan on attending one of two sessions offered on Tuesday.*

## **CHAMPIONS AFTER PARTY**

The Champions After Party at The Hangar is the ultimate celebration of our students' hard work, dedication, and achievements during the conference. This high-energy event offers something for everyone—students can enjoy a buffet dinner alongside Techspo displays, followed by a lively dance, while advisors have a private area to connect and network over a specially curated menu. Whether dancing to the beat, exploring cutting-edge technologies, or sharing moments with peers and colleagues, the Champions After Party at The Hangar is the perfect way to cap off the conference and celebrate the incredible potential you've ignited!

## **STATE OFFICER CANDIDATES**

"Do you strive to grow in leadership and communication, and be a part of something bigger than yourself? Being a state officer does all those things and so much more. You will have opportunities to travel around the state and nation to help others in their pursuit of individual growth and growth as members of SkillsUSA."

*Emma Hauber, State Officer '16-'17 and '17-'18*

To learn more about the state officer program and apply to be a 2026-2027 state officer, visit our [website](#). All attendees will be allowed to meet and greet with our state officer candidates.

## **VOTING DELEGATES**

SkillsUSA is a student-led organization, and one way we can ensure this is through the voting delegate program. Each local chapter shall be entitled to appoint or elect two voting delegates to represent their chapter.

### **Duties and Responsibilities**

The duties of the voting delegates are important to the operation of the organization. Duties include:

- Represent the views of your chapter
- Attend the Voting Delegate Meeting to hear candidate speeches and participate in the election

## **VOTING DELEGATES *continued*:**

### **Eligibility**

Each Wyoming Chapter may send 2 delegates. All student members are eligible to serve as voting delegates. We discourage competitors from serving as voting delegates whose schedule hinders attending the delegate session on Monday evening. The election will not be moved to accommodate competitor schedules, so if the competitor is unable to participate in the election at the Voting Delegate Meeting, they will forfeit their vote.

## **CHAPTER EXCELLENCE PROGRAM**

The Chapter Excellence Program (CEP) is the single best way to build a successful SkillsUSA chapter. The CEP recognizes achievement in integrating the SkillsUSA Framework into the chapter Program of Work activities.

Every chapter is required to participate in the CEP, and there are three award levels to recognize program involvement. The first two levels are acknowledged on a state level, and the third level is recognized nationally. Each level is designed to give chapters a benchmark for success and future improvement, leading to stronger chapters and better-prepared students. To compete at the State Leadership and Skills Conference, all chapters must achieve Quality Chapter status through the CEP. The more a chapter applies the SkillsUSA Framework, the greater the chance for CEP honors, so go for the gold and gain the recognition your chapter deserves through CEP participation!

### **Recognition Levels**

#### **Level 1: Quality Chapter**

This first level honors chapters for achieving essential standards of excellence **and is a requirement in Wyoming to be eligible to register for state conference.**

#### **Level 2: Chapter of Distinction**

This second level recognizes chapters that go beyond baseline requirements, and Chapter of Distinction award winners may earn bronze, silver, or gold levels of this award. Chapters that achieve this level will be recognized at SkillsUSA Wyoming's State Leadership and Skills Conference.

#### **Level 3: Models of Excellence**

Chapters in each state receiving a gold "Chapter of Distinction" award are eligible for national selection as a Models of Excellence chapter. These chapters define excellence. Best practices will be gleaned from the award winners and shared with the field to serve as models for other chapters to emulate in strengthening their local programs. Eight chapters will be chosen to represent each component of the SkillsUSA Framework (Personal, Workplace, and Technical Skills), and one winner representing each component will be chosen at SkillsUSA's National Leadership and Skills Conference.
